FRENZIED GOOD-TIME AT LAST NYE PARTY!

Dec 31st, 2006 – Although most people don't want to remember what they did at their New Year's Eve party (not to mention how much they drank) the enthusiastic 250 plus people that gathered at Malone's New Year's bash had an incredible night to remember. There were people from all over the place that stopped by and said hi – Kiwis, Brazilians, Russians, Turks, Irish, Aussies, Canadians, people from Bermuda, Vegas, you name it. It seemed that they all had something in common, drinking, dancing and yelling their hearts out. People were showing up in droves, probably from other parties, shocked to see that everyone was having a good time in casual wear instead of fancy holiday clothes. It was almost as if the party was taking place right in the street, with people on the sidewalk waiting so long to get into the packed club that they were jumping outside. The extended bar hours made it joyful for everyone in the room, making it harder and harder for the staff to slow down the frenzied good time, with the audience always wanting more from the band. We played up until 3am, exhausted but happy to see that we had delivered a good performance and another unforgettable night.
